BULLETIN NO. 22/23-005   DATE: 11 Nov 22

TO: ALL ISR DISCIPLINES STOCK BASED CLASSES

SUBJECT: ISR Technical Inspectors have authority to review data acquisition programs.

ATTENTION ALL DISCIPLINES THAT HAVE STOCK BASED CLASSES THAT USE ON BOARD DATA ACQUISITION METHODS OR DEVISES. (INCLUDES JUNIOR/ TRANSITION/NOVICE/ YOUTH CLASSES)

In Stock based classes ISR Technical Inspection Directors may ask drivers/owners to provide their team laptop, and acquisition program to monitor certain functions and data at the completion of a race event. (I E: Any Practice, Hot Laps, Heats, Rounds, or Finals)

As the tuning methods of current technology race vehicles use various methods of computer controls and data points, the technical inspectors have the authority to review and observe data that resides in the system. Please make your system and access to it available for the inspectors when requested.

Not providing access to the system will be recorded as refusal to allow Technical Inspection, and will be subject to disqualification.
