

BULLETIN NO. 12/13-011

DATE: 17 FEB 13

**TO: ENDURO AFFILIATES, MANUFACTURERS AND
SMDG AFFILIATES**

SUBJECT: TAIL LIGHTS

It is the driver's responsibility to maintain their tail light in a manner that it is highly visible to other competitors that are on the race course.

This is not a minimum illumination effort. The battery and tail light combination must be sized to meet the eight square inch rule and to keep the tail light properly illuminated throughout the race.

If track officials are unable to see the tail light, it is their responsibility to notify the driver that their tail light is improperly illuminated and that it needs to be repaired.
