

BULLETIN NO. 14/15-005 DATE: 26 Nov 14

TO: ALL ISR Sno Cross and Cross Country Affiliates

SUBJECT: Ski Trimming

Below is our recommendation on maximum ski trimming (for the rear of the ski):

From rear of ski, both sides can be trimmed to a maximum of 9 inches forward.
The rear of ski can be trimmed to a minimum of 1 inch in width.
Rear tip corners should have a rounded radius.

Ski material can be removed as long as it doesn't affect the overall length and width of the ski.

Ski keel material can be removed to except ski runner
